PROJECTS

- https://rodrigohernanlopez.com.ar/: My portfolio, made with React. I used React-i18n to display the translations. Backend includes a PostgreSQL/TypeORM database.

- https://perfumeriamundial.ar/ : Fragrance e-shop (will be launched end of September, demo here) developed for a client of mine. Admin dashboard to upload and edit products and various features (discounts, images, sizes,etc). Checkout and payment flow (Mercado Pago). JWT authentication and Redux state management. Mongodb index search.

- Task manager with React, Nodejs & MongoDb: User and forgot-password routes are protected with JWT, with access and refresh tokens working along with Axios interceptors. State management implemented with useReducer/useContext hooks. User profile page currently under construction / Task manager: Typescript, React, Nodejs& MongoDb. Styled-components
